

Live on the Hawk Cam

The red-tailed hawk baby hatched live on camera. Hawk Cam viewers voted online to name the baby hawk, Pip.

Washington Square Park,
New York City, NY

A red-tailed hawk family built a nest on the twelfth floor outside of the office window of the President of New York University. In 2011, The New York Times broadcasted the hawk family raising their young for 127 days on the Hawk Cam.

Hawk Cam: Live from the Nest. cityroom.blogs.nytimes.com/category/hawk-cam-live-from-the-nest/. April 4, 2011-August 11, 2011.
